Subject: Uganda Update 3, March 8, 2015

I continue to play catchup with the updates and will with this update focus on Monday, March 2

Sunday evening we traveled from Nyanzi to Kyamagemule where the heart of this work is located. Pastor George Yawe has created to guest rooms which share a toilet and shower so it is comfortable for us.

About 40 students are boarding students at the school with a total enrollment of over 300. In an additional update I will say more about the school and the new buildings they have.

Monday began the filter project for Michael while I spent time at the school, especially focusing on sponsorship students. We took over several [sponsorships](#) that Mercy Uganda had established and have now added seven more to the list. I am attempting to gather all the data I can on these children so our sponsors have a better understand of whom they are helping.

Michael sifting sand for the water filter project while students wonder what is going on

Martin Sebuguzi, head teacher, greets the students as school begins on Monday morning

School choir sharing greetings to me (Michael already sifting sand)

Notice the pencil box with the preferred tool for sharpening your pencil is a double edged razor blade

This Taylor is making school uniforms on one of the sewing machine donated by Mercy Uganda and is teaching older students to sew

No floor scale so students had to hang on a hook so we could determine weight for Sponsorship parents
