First let me say thanks to all who have responded and making we aware of your prayers. This has been a more difficult trip than the last eye clinic, but in the end, things have gone well.

The surgery ended today. Last night we had yesterday's surgery group join together to express their thanks to God for the eye ministry. It was quite a moving experience and a photo is below.

Additionally, a friend of many years brought his young daughter for the doctors to examine. She had some type of intestinal surgery a few months ago and the scar is absolutely horrible. Additionally, the doctors said this would continue to cause problems for years to come unless corrected. . But eye doctors are not plastic surgeons. I had my friend go to two hospitals to find out what it would cost for corrective surgery. The prices were close, but \$350 was the cheapest.
