I have now been in Uganda for five days and have difficulty getting on the Internet with my laptop computer so this update is late in coming.

I arrived late Thursday night and spent Friday getting everything set up for the Men's teaching here at the guest house and for village ministry.

Saturday I spent the whole day at the church plant at Nyanzi and as was requested, spoke on the family from Ephesians 5:22 - 6:4. I think it was a good session and I got a lot of great question. There is a common belief here that if you have not had a church wedding, you are not married. This leads to a very weak view of the family.

The first building for the Nyanzi church was just complete late last year and I would encouraged to a good crowd there. Sadly, as the program there was ending, about ten more folks arrived. They are part of the church, just came late. They did join in the meal just before we left.

Sunday preached at Bethel School and attended the celebration for the students who passed the recent senior high exams.
