December 10, 2019

As most of you realize, I have not been one of those in ministry that sends out an email update every time the wind blows. Further, it has been about seven months since my last Uganda trip and updates. I continue to oversee all the ACTI organization and funding on this side of the Atlantic.

First, let us thank all of you who continue to pray for this ministry and also Betsy's health. She looks great, just has a considerable amount of internal pain with her cancer. Since the May trip, she has needed my help so I did not go with Dr. Bonner on the September eye ministry. He is going again in May and we hope things are such that I can go also.

Again this year, I am seeking to raise funds for Christmas Baskets for very poor, very needy families in Uganda. This year I am seeking to increase things a little and we are adding a female goat to our Christmas Baskets. This will provide milk for the family and offspring to sell, plus we ask each family that receives a goat to give us a female goat in the fall of 2020 that we can include as part of the 2020 Christmas Baskets. Therefore, we are asking for \$30 per basket, but any and all contributions go to this project. We are working in three villages again this year, Kyamagemule, Seeta Nazigo, and Kiroba. The baskets (actually a plastic pan) will contain the following: a live chicken, a kilogram of rice, a kilogram of maize flour, 1/2 kilogram of potatoes, liter of cooking oil, 1/2 kilogram of sugar, a loaf of bread, tub of Blue Band (margarine) and this year, a goat.

Some photos from last year's Christmas basket distribution are on the back of this letter.

God bless and Merry Christmas,

Bob & Betsy
