Subject: Uganda Trip Postponed

It was my plan this evening to be crafting a departure email for our trip to Uganda in the morning. However, this afternoon, Betsy became disoriented and incoherent. We got her to the ER to see what might be causing this and after several hours of tests and observations, the cause could not be identified and she was admitted to the hospital. Therefore, Fred and I decided it best that we postpone our trip until a later date. Once plans are made, we will let everyone know.

I certainly covet your prayers for Betsy and those who are caring for her.

Thanks,
Bob
